Darbouze Marcus

SOFT SKILLS

- Teamwork
- Take initiative
- Problem solving
- Openness

HARD SKILLS

- Adobe Suite
- Sketchup 3D
- Blender 3D
- Rhino 3D
- Procreate
- Keyshot

LANGUAGES

- French native
- English fluent TOEIC B2

INTERESTS

- Movie
- Camping
- Portrait drawings
- Gaming

PROFILE

Part-time master's student in **industrial design at the Saint Gobain Compiègne Research Center**, I have collaborated on building projects focused on acoustic comfort and the automotive sector, especially on the 2024 Democar. Driven to challenge myself, I aim to bring a touch of **fun** and **emotion** into my work and to apply my knowledge with creativity, professionalism, and initiative.

I am actively seeking a new national or international challenge as a product designer, I will be available from November 30, 2024.

WORK EXPERIENCE

INDUSTRIAL DESIGN

Apprenticeship at Saint Gobain

September 2022 - Present

- Integration of R&D projects using **Design Thinking** to innovate, use of **benchmarking**, interviews, personas, journey maps, and user tests.
- Focus on **User experience** with glazing and other technologies developed by Saint-Gobain.
- Close **collaboration** with design and engineering teams to optimize **product performance** and **user-friendliness**.
- Work on the **harmonious** integration of Saint-Gobain technologies in **2024 Democar**.
- **Prototyping** adapted to needs, from drawing and storyboarding to CAD modeling and 3D printing.

EDUCATION

Bachelor/Master degree industrial design

Rubika Valenciennes

2019-Present

Relevant coursework: Design thinking, Design History, Sketching, 2D rendering, 3D rendering, CMF, techpack, etc.
