

To whom it may concern,

I hereby support the application of my trainee, Paulo Machado Mendes.

Paulo has been a great asset during this time working for me at La Redoute. He can be trusted in doing a technical work and giving accurate reports. He got a global vision but also act locally.

I had absolutely no issues when delegating some of my tasks, sometimes critical. He also has good communications skills and he always think as a team player (he's good at football too)

He is proficient in both English and French and obviously Portuguese. I am willing to talk this through if that can support his application (+33768351748).

Kind Regards,

Yann DUBOIS

Flow manager at La Redoute (International department)
