Lettre de recommandation pour M. Modar MALLA

M. Modar Malla a réalisé son stage de Master dans mon service où il s'est intéressé aux méthodes de réglage de contrôleurs PID et à la réalisation d'un outil valorisant ses travaux dans l'environnement Simcenter Amesim et Python. Ce stage d'une durée de 5 mois s'est déroulé selon les méthodes Agile et l'a confronté à de nombreux outils propres au développement de logiciel.

Durant cette période, M. Malla a fait preuve de ténacité et de persévérance. Son enthousiasme lui a également permis de s'intégrer facilement dans l'entreprise. A cet égard et tenant compte de sa motivation à poursuivre sa carrière d'ingénieur en France, je recommande M. Malla en tant qu'ingénieur dans le domaine du contrôle et de la simulation.

Cordialement,

Bruno Lecointre

Reading Skills | Level | Your Performance

Reading	Intermediate	<p>Test takers who receive a score at the INTERMEDIATE level, as you did, typically understand academic texts in English that require a wide range of reading abilities, although their understanding of certain parts of the texts is limited.</p> <p>Test takers who receive a score at the INTERMEDIATE level typically</p> <ul style="list-style-type: none"> • have a good command of common academic vocabulary but still have some difficulty with high-level vocabulary; • have a very good understanding of grammatical structure; • can understand and connect information, make appropriate inferences, and synthesize information in a range of texts but have more difficulty when the vocabulary is high level and the text is conceptually dense; • can recognize the expository organization of a text and the role that specific information serves within a larger text but have some difficulty when these are not explicit or easy to infer from the text; and • can abstract major ideas from a text but have more difficulty doing so when the text is conceptually dense.
---------	--------------	---

Listening Skills | Level | Your Performance

Listening	High	<p>Test takers who receive a score at the HIGH level, as you did, typically understand conversations and lectures in English that present a wide range of listening demands. These demands can include difficult vocabulary (uncommon terms, or colloquial or figurative language), complex grammatical structures, abstract or complex ideas, and/or making sense of unexpected or seemingly contradictory information.</p> <p>When listening to lectures and conversations like these, test takers at the HIGH level typically can</p> <ul style="list-style-type: none"> • understand main ideas and important details, whether they are stated or implied; • distinguish more important ideas from less important ones; • understand how information is being used (for example, to provide evidence for a claim or describe a step in a complex process); • recognize how pieces of information are connected (for example, in a cause-and-effect relationship); • understand many different ways that speakers use language for purposes other than to give information (for example, to emphasize a point, express agreement or disagreement, or convey intentions indirectly); and • synthesize information, even when it is not presented in sequence, and make correct inferences on the basis of that information.
-----------	------	---

Speaking Skills		Level*	Your Performance
Speaking about Familiar Topics	Fair	Your responses indicate you are able to speak in English about your personal experiences and opinions in a mostly clear and coherent manner. Your speech is mostly clear with only occasional errors. Grammar and vocabulary are somewhat limited and include some errors. At times, the limitations prevent you from elaborating fully on your ideas, but they do not seriously interfere with overall communication.	
Speaking about Campus Situation	Limited	Your responses indicate that you have some difficulty speaking in English about information from conversations, newspaper articles, university publications, and so on. While you are able to talk about some of the key information from these sources, limited grammar and vocabulary may prevent you from fully expressing your ideas. Problems with pronunciation make it difficult for listeners to understand you at times.	
Speaking about Academic Course Content	Fair	Your responses demonstrate that you are able to speak in English about academic reading and lecture material, with only minor communication problems. For the most part, your speech is clear and easy to understand. However, some problems with pronunciation and intonation may occasionally cause difficulty for the listener. Your use of grammar and vocabulary is adequate to talk about the topics, but some ideas are not fully developed or are inaccurate.	
Writing Skills		Level*	Your Performance
Writing based on Reading and Listening	Fair	You responded to the task, relating the lecture to the reading, but your response indicates weaknesses such as <ul style="list-style-type: none"> • an important idea or ideas may be missing, unclear, or inaccurate; • there may be unclarity in how the lecture and the reading passage are related; and/or • grammatical mistakes or vague/incorrect uses of words may make the writing difficult to understand. 	
Writing based on Knowledge and Experience	Fair	You expressed ideas with reasons, examples, and details, but your response indicated weaknesses such as <ul style="list-style-type: none"> • you may not provide enough specific support and development for your main points; • your ideas may be difficult to follow because of how you organize your essay or because of the language you use to connect your ideas; and/or • grammatical mistakes or vague/incorrect uses of words may make the writing difficult to understand.

* Skill levels for speaking and writing individual skills are estimates of performance at the *item* level. The total writing and speaking scaled scores and ranges are more accurate. Therefore it is not appropriate to combine the individual skill levels. Doing so may lead to apparent inconsistencies between the diagnostic feedback and reported writing and speaking scores.
