

Trapani, June 30th, 2017

**TO WHOM IT MAY CONCERN**

I undersigned, Dr Andrea Santulli, Director of the Marine Biology Institute of Consorzio Universitario della Provincia di Trapani (Italy),

Attest that:

Kamel Maztouri, student of the Higher School of Food Industries of Tunis, Laboratory of Analysis, Treatment and Valorization of the Pollutants of the Products and Environment at the Faculty of Pharmacy of Monastir, Tunisia attended the Marine Biology Institute, from the 01/04/2017 to 30/06/2017.

During this period of training, under the supervision of Dr Concetta Messina, Mr Maztouri worked on on the determination of the nutritional value of the fish before and after the administration of the exopolysaccharides obtained from the potential probiotic candidates.
