## Recommendation Letter

Campo Grande, June 15th, 2024

To whom it may concern,

I am writing this letter to recommend Mr. Aymeric Gaboreau, who worked under my supervision during the first semester of 2024 in my laboratory. During this period, Aymeric played a crucial role in the curation, maintenance, identification, and organization of neotropical snakes, and he brilliantly developed a project on the ecological aspects of Pantanal snakes.

Mr. Aymeric demonstrated exceptional ability to work in a team. He effectively collaborated with other lab members, always showing a willingness to learn and assist colleagues with their tasks. His communication and cooperation skills were fundamental to the success of our group activities. In addition to being an excellent collaborator, Aymeric also exhibited great autonomy in performing his tasks in the laboratory. He stood out for his ability to work independently while maintaining high standards of organization and precision in the curation and maintenance of the snake collections. His dedication and competence were evident in every project he undertook. He participated in several expeditions in the Cerrado and Pantanal ecoregions, all coordinated by me. On these occasions, he demonstrated physical endurance and adaptability to field conditions.

Another point to highlight is Aymeric's fluency in both English and Portuguese. He possesses a very good level in both languages, which greatly facilitated communication with colleagues and the reading of scientific literature. This ability contributed to a more integrated and efficient working environment.

In summary, Aymeric Gaboreau is a dedicated and competent professional with exceptional skills in both teamwork and independent laboratory and field work. His fluency in English and Portuguese and his experience in scientific expeditions are qualities that will certainly benefit any project or institution. I therefore recommend Aymeric Gaboreau with total confidence and am available to provide any additional information that may be required.

Sincerely,

Dr. Diego José Santana
